SEASONABLE HINTS TO FARMERS.

From "Hints about Work" in the March number of the American Agriculturist, we select for the Farmer's Column of the COMPILER such as we believe to be of most value in this region.

BROOD MARES that will foal this spring, if worked, should be driven with caution, never overheated, nor put to their speed, nor given drink when hot, nor lack water when thirsty. Light work will not hurt them, even before the plough or harrow.

MILCH COWS, soon to calve, should not be too much confined in stables. Exposure to the weather, when it is not wet, in dry yards and lawns where they can take some exercise, but not where they will be subject to the annoyance of quarrelsome cattle, will be of essential benefit to them.

CALVES.—When calves are to be brought up by hand, which is the economical way, we are decidedly of the opinion that it is the most humane practice to remove the young animal from the dam at once; the more the cow has to do with it, the harder will be the parting.

HORSES, and indeed all animals shedding their coats, should be thoroughly and carefully curried and brushed; it greatly promotes health and good looks, and makes the feed go further. Work horses should be exercised daily by doing some work.

PAINTING may be done in dry weather to excellent advantage, because there is little or no dust flying; the sun cracks are not gaping open as in summer; they will be covered more smoothly, and there is less liability of the heat of the sun blistering the half-dry paint; surfaces to be painted must be thoroughly dry, however, or paint will be apt to peel.

REPAIRING.—In the lull of other work, which a cold snap or rain may occasion, the time may well be employed in making alterations or repairs in the barns and out-buildings, the mows being nearly or quite clear.

COMPOST may be made. Use muck from the woods or wherever else deposits of it may be found, with good barn-yard manure, or with lime—but in no case with manure and lime together, unless very large proportions of muck or soil be used.

FIELD WORK.—Stones may be raised, picked up and hauled off, or thrown in heaps; fences righted up, and posts reset or removed. Furrows should be plowed to draw off surface water, and water furrows in grain fields opened anew. Wherever the wash of the highways can be turned upon the meadows and pastures, it should be secured, and when the current is not very strong, or may be easily spread, it is very valuable on any land. This is especially true of snow-water.

WINTER GRAIN is often greatly benefited by a light dressing of some fertilizer—ashes and plaster, either or both; bonedust also, and superphosphate of lime, if good.

GRASS SEEDING, if done well, will be successful; use a little more than enough seed, and sow while the ground is still loose and open from the escaping frost.

FRUIT TREES.—Plant when the ground is in order. Prune at planting, not only to keep matters square between root and leaf, but also to shape the tree. Get all the roots that the nurseryman can be induced to give, trim all that have been severed, with a smooth cut sloping from below upwards, then shorten at least half of last year's growth. Do not look upon a young tree for what it is, but what it will be when the buds have grown to limbs. The last bud left on the limb will become the leader, and it should point outward, or to the right or left, as is needed to shape the tree, but seldom, or never, inward. If necessary to cut two or three buds below the one preferred, in order to find one that points in the right direction, do it. Cut near to, but not too close to the bud, and never leave a stub above the bud, to decay. Also cut out all useless branches, and those which will cross. Have everything in readiness to set out trees as soon as they arrive.

THE TRUNKS of old orchard trees may be treated to the soft soap wash. Home-made soap is the best, but ley or a solution of 1 pound of potash to 4 gallons of water may be used instead.

GRAPE VINES.—Extra buds left in the autumn pruning may now be cut away. Plant new vines as early as the soil is fit, and allow only one cane to grow from a young vine the first year.

GARDENS.—Soil should never be worked when it is wet. Wait until it will crumble when spaded. If any part of the garden is slow in coming to this condition, drain it. All gardens should be drained, but wet ones are eminently in need of it. Subsoiling is not a bad substitute.

TREES FOR THE LAWN, yard or roadside, should be as carefully selected and planted as fruit trees. If wild trees are used, select them from the edges of the woods and exposed situations, and take them of moderate size. [In regard to the latter our experience has been considerable, and we are convinced that in order to have them to grow the utmost care must be exercised in taking up and planting.—EDITOR COMPILER.]

PEACH TREES.

We have published in this column, in the last three months, several lists of choice Apple and Pear Trees, and now add one embracing the most select Peaches, as furnished us by a friend who is well posted. There are other desirable varieties, but we are content to give these, the most reliable, as the first installment:

EARLY.—Early York, Cole's Early Red, and Hale's Early—the latter not yet much grown here, but very highly spoken of.

MEDIUM SEASON.—Oldmixon Free, Oldmixon Cling, Red Cheek Melacoton and Morris White.

LATE.—Malta and Lagrange.

From this list, and those of Apples and Pears previously published, all who desire to plant trees will be able to make the best selections—and with trees, as with everything else, much depends upon starting right.

WASH FOR BUILDINGS.

If properly applied, whitewash is one of the most useful articles in the world, as it not only prevents the decay of wood, but promotes the healthfulness of all buildings. Fences and out-buildings, if not painted, should be supplied as often as once or twice a year with a good coat of whitewash. We find in the CHEMICAL GAZETTE, the following receipt for a good whitewash or a wash of different colors:

"Take a clean, water tight barrel, or other suitable cask, and put into it half a bushel of lime.—Slake it by pouring water over it, boiling hot, and in sufficient quantity to cover it five inches deep, and stir it briskly till thoroughly slaked. When the slaking has been effected, dissolve it in water, and add two pounds of sulphate of zinc, and one of common salt. These will cause the wash to harden, and prevent its cracking, which gives an unseemly appearance to the work. If desirable, a beautiful cream color may be communicated to the above wash, by adding three pounds of yellow ochre, or a good pearl or lead color by the addition of lamp, vine or ivory black. For fawn color, add four pounds umber—Turkish or American, the latter is the cheaper—one pound Indian red, and one pound of common lampblack. For common stone color, add four pounds of raw umber, and two pounds lampblack. This wash may be applied with a common whitewash brush, and will be found much superior, both in appearance and durability, to common whitewash."

Working the Ground While it is Wet.

The temptation is often great, to use a fair day for the preparation of the soil for crops before the water is sufficiently dried off, or drained out of it, to warrant its being stirred at all. Thus the gain of forty-eight hours in time is often a serious detriment to the field for the entire season. Light sandy loams are not injured in this way, but very clayey loam is, and as a general rule, so is any soil which ever dries in lumps. The plow presses the furrow slices into clods, which often dry like pressed bricks, and the treading of the teams in harrowing makes bad worse, though the harrow tears them up somewhat. Even heavy loam may be worked into a light, porous, warm seed-bed if in proper condition for plowing before being worked.

☞ The Fruitgrowers' Society of Western New York lately took a vote upon the best varieties of hardy Grapes. Thirty-one persons voted, and those grapes which had over ten votes were, in the order of the number of votes they received, as follows: Delaware, Diana, Isabella, Hartford Prolific, Concord, Creveling.

TO AN UNKNOWN LADY.

ON SEEING HER REMOVE THE OUTER GARMENT OF A FEEBLE OLD MAN, WHILE IN CHURCH.

BY AMOS A. ROTH.

Fair lady, this tribute to thee I will give,
Though thou art to me yet unknown;
Thy kindness to him in my mem'ry will live,
When years o'er my life shall have flown.

Old age has its cares and its trials as well,
As the man in the summer of life;
The ocean of life, in huge billows will swell,
And storms and temptations are rife.

To smooth his old age, may your heart be inclined,
And your efforts be crowned with success,
A treasure of love in his bosom you'll find,
And a pillow to ease your distress.

When life shall have ended, and earth is no more,
His blessing shall with you abide,
Though storms may arise, and life's billows may roar,
His spirit will stand by your side.

Then stand by his side, till his journey is o'er,
His days are but few here on earth;
One foot's in the grave, and he looks to the shore,
Where pleasures eternal have birth.

Extraordinary Excitement in Bracken County, Kentucky.

A correspondent of the Mt. Sterling (Ky.) *Sentinel* gives the following account of a fiery fiend visible in Bracken county:

BRACKEN CO., KY., Feb 17, 1866.

The people in this neighborhood are in the greatest state of excitement in consequence of a remarkable visitation or apparition, of some demoniacal personage in our midst. I am not a believer in the doctrine that disembodied spirits can "revisit the glimpses of the moon," nor do I believe that epoch designated in prophecy when *the chains of Satan are to be unloosed*, has arrived. But the things whereof I now write are of such strange import, so inexplicable, that I have determined to put you in possession of a full and explicit narrative of them, merely promising that every word is true, and the facts sworn to, as witness the accompanying affidavit. What it is, I am unable to say. I merely give the facts, such as I am personally cognizant of, and leave it to wiser heads than my own to unravel the mystery.

On Monday night last, after myself and family had retired to rest, we were suddenly aroused by a great outcry from the negro quarters—which are immediately to the rear of the house—in which prayers vied for supremacy with blasphemies, men, women, and children screaming "fire!" and "murder!" at the top of their voices, all conspiring to create a scene worthy of a pandemonium. Terribly startled, my wife and I sprang from our bed. The room was illuminated as brightly as by a flood of sunlight, though the light was of a bluish cast. Our first and most reasonable conclusion was that the negro cabins were being consumed by fire. We rushed to the windows and beheld a sight that fairly curdled the blood in our veins with horror, and filled our hearts with the utmost terror. My daughter, shrieking loudly, came running into my room, hysterical with fear. This is what we beheld:

Standing to the right of the upper cabin, near the fence that separates the negroes' garden from the house yard, was a creature of gigantic stature, and the most horrifying appearance. It was nearly as high as the comb of the cabin, and had a monstrous head not dissimilar in shape to that of an ape; two short very white horns appeared above each eye; its arms were long, covered with shaggy hair of an ashy hue, and terminated with hugh paws, not unlike those of a cat, and armed with long and hooked claws. Its breast was as broad as that of a large sized ox. Its legs resembled the front legs of a horse, only the hoofs were cloven. It had a long tail, armed with a dart shaped horn, which it was continually switching about. Its eyes glowed like two living coals of fire, while from its nostrils were emitted sheets of bluish colored flame, with a hissing sound, like the hissing of a serpent, only a thousand times louder. Its general color, save its arms, was a dull, dingy brown. The air was powerfully impregnated with a smell of burning sulphur. The poor negroes were evidently laboring under the extremest terror, and two of them, an old woman and lad, were actually driven to insanity by their fears and have not recovered their reason up to this writing. I do not know how long this monster, demon or devil, was visible after we reached the window—possibly some three seconds. When it vanished it was enveloped in a spiral column of flame that reached nearly to the tops of the locust trees adjacent, and which hid its horrid form completely from view. The extinction of the flame was instantaneous, and with its disappearance we were relieved of the presence of this remarkable visitor.

It would be impossible for me to attempt to describe the effect of this visitation upon the members of my family. Suffice it to say, that my wife and two daughters are firmly persuaded that it was the veritable Satan. For myself, I would willingly believe that we all, by some curious coincidence, had been the victims of a horrid nightmare, did I not know that we were fully awake, and actually witnessed that which is above recorded. Again, if ours had been the only family visited by this unearthly creature, I should have kept silent, and, perhaps, tutored my mind into the belief that it was an hallucination.

But precisely the same apparition made its appearance at my neighbor's, Mrs. Wm. Dole, appearing there in precisely the same shape in which it presented itself to us, save the head, which appeared to those who witnessed it at Mrs. D.'s to resemble that of a horse. At Mr. Adam Fuqua's, another neighbor, its head was that of a vulture. On Tuesday night it appeared at Mr. Jesse Bond's, there wearing the head of an elephant. At all these places it made the same appearance as at my house—excepting only the changing of the head—and disappeared in the same manner. These parties are all reliable ladies and gentlemen, and at my request have made oath to what they witnessed.

What it is, what its object, what its mission, is something that passes my poor comprehension. What I have above written is simple, unadorned truth. You are at liberty to use this in any manner you may esteem proper. Respectfully your friend,

NATHANIEL G. SQUIRES.

STATE OF KENTUCKY, BRACKEN CO.—*Sct.*—This day personally appeared before the undersigned, John G. Finley, Justice of the Peace, within and for the county and State aforesaid, Nathaniel G. Squires, Minerva Squires, Sarah D. Squires, Lucy Squires, Martha W. Dole, Adam Fuqua and Jesse Bond, who being duly sworn according to law, declare that the statements in the foregoing letter are true as far as refers to each of them. And I certify that affiants are credible and reliable persons, and their statements entitled to full faith and credit.

JOHN G. FINLEY, J. P. B. C.

"THE RUMP."

As Described by Hon. John Van Buren.

Hon. John Van Buren made a telling speech at Bridgeport, Conn., on the 7th inst., from which we make the following interesting extract:

They (the Radicals) insist upon it that there was a great want of dignity in the President on the 22d of February. It is barely possible they may have been spoiled by what has gone before (laughter), and that ordinary Democratic manners offend the fastidious tastes of those who are accustomed to the high aristocratic tone of his late lamented predecessor. But, further, they charge him with imitating Cromwell, and they say that there are indications that he intends to treat this Congress as Cromwell treated the old Rump Parliament after the execution of Charles the First. Let us look for a single moment, as we are upon the question of dignity, at what Cromwell did, and I will read you a little extract from Hume, as to the manner in which Cromwell dissolved that Parliament:

"And suddenly starting up, he loaded the Parliament with the vilest reproaches for their tyranny, oppression, and robbery of the public. Then stamping with his foot, which was a signal for the soldiers to enter, 'for shame,' said he to the Parliament; 'get ye gone; give place to honester men, to those who will more faithfully discharge their trust. You are no longer a Parliament; I tell you you are no longer a Parliament. The Lord has done with you; He has chosen other instruments for carrying on His work. Sir Harry Vane exclaiming against this proceeding, he cried with a loud voice, 'Oh! Sir Harry Vane, Sir Harry Vane! the Lord deliver me from Sir Harry Vane!'"

I think the Sir Harry Vane of that day must be the Sumner of this.

"Taking hold of Martin by the *cloke*, 'Thou art an adulterer,' said he. To a third, 'Thou art a drunkard and a glutton,' and 'Thou an extortioner,' to a fourth.

"He commanded a soldier to seize the mace. 'What shall we do with this bauble? here, take it away. It is you,' said he, addressing himself to the House, 'that have forced me upon this. I have sought the Lord night and day that He would rather slay me than put me upon this work.'"

Having commanded the soldiers to clear the hall, he himself went out the last, and ordering the door to be locked, departed to his lodgings in Whitehall.

In this furious manner, which so well denotes his genuine character, did Cromwell, without the least opposition or even murmur, annihilate that famous assembly which had filled all England with the renown of its actions and with astonishment at its crimes, and whose commencement was not more ardently desired by the people than was its final dissolution.

Now, it is flattery to call this Congress a Rump Congress. (Laughter.) It is a great deal more like a Parliament that succeeded and which was known as the Barebone Parliament, in which there were members with all sorts of names, as described by a writer of that day, who says ("Brown's Travels in England;" page 279):

"'Cromwell,' says Cleaveland, 'hath beat up his drums clean through the Old Testament. You may learn the genealogy of our Saviour by the names of his regiments.—The muster master has no other list than the first chapter of St. Matthew. The brother of this Praise God Barebones had for name, If Christ-had-not-died-for-you-you-had-been-damned Barebones; but the people, tired of this long name, retained only the last word, and commonly gave him the appellation of Damned Barebones.'"

Now one would not have to go long through the present Congress and the Reconstruction Committee before finding a gentleman who answers exactly to the description of "damned Barebones." (Laughter.) But, as I say, they are the most extraordinary body that ever organized, and to call them a Rump Parliament—which was, in fact, a representation of England, however long it might have continued its sessions and its power—is to flatter them. Why, just look at it! Eleven States are unrepresented in that body, and about half of the residue are utterly misrepresented by men elected in a time of excitement, when there was no fair opportunity for an expression of opinion, and under circumstances that have entirely changed since their election. This body is sitting in Congress, nominally under a Constitution which says, "representatives and direct taxes shall be apportioned among the several States which may be included within this Union, according to their respective numbers. Each State shall have at least one representative." The Constitution also says, "The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof for six years, and there Senators shall each have one vote." Now look at that body, with eleven States entirely unrepresented under a Constitution which declares that each State shall have one representative in Congress, and that the Senate of the United States shall be composed of two Senators from each State—eleven States entirely unrepresented in either House of Congress. What more? Why, under a Constitution which requires each House to judge of the election and returns of its own members, they pass a joint resolution, by which they take from themselves the power separately to judge of the returns of their members, and proclaim that neither House shall admit any person from the States formerly in rebellion till both Houses have acted upon the subject by a legislative act or otherwise. What more? Why, while in this disorganized state, mutilated and imperfect, a man gets up in the Senate and charges the President with whitewashing the South, and another man says that the conversation of the President, I believe with Mr. Dixon of your own State, in which he simply gave his views with regard to the duties of Congress, "would have cost Charles I his head in the day in which he lived."—Such a body as that, I say, is an illegal, unconstitutional assemblage. It is in point of law a mob, and in my judgment the Mayor of Washington neglects his duty every day in not dispersing them as such. (*Applause and laughter.*) And that is the noble army of constitutional defenders, which the Republican Convention of this State indorses, and which the people are called upon to sanction and approve.

Illinois.—The veto message and late speech of Andrew Johnson have disarmed the Radicals of Southern Illinois. Democrats and Conservative men are everywhere united in support of him who stands by the *Constitution*. Immense meetings have been held throughout the State, addressed by Hon. Wm. J. Allen, Judge H. K. G. O'Melveny, and others. It is stated by the intimate political friends of Gen. John A. Logan, that he supports the President.

Gettysburg, Monday Morning, March 19, 1866.

H. J. STAHLE, EDITOR AND PROPRIETOR.

FOR GOVERNOR,
Hon. HIESTER CLYMER,
of Berks County.

A GOOD DAY'S WORK.

The United States Senate, on Friday week, voted on the amendment altering the basis of representation, which had triumphantly passed the House. The Senate vote resulted—yeas 25, nays 22—not two-thirds, and it was therefore lost. Twelve Republicans voted in the negative with the Democrats.

The President and the country have reason to be encouraged. It may now be looked upon as certain that none of the Radical measures can be consummated. The Southern Senators and *Representatives* may be kept out, but no further constitutional amendments can be carried through the two Houses, nor any measures designed and calculated to gratify the sectional hate of the Radical fanatics.

VERY SIGNIFICANT!

The *National Intelligencer*, the old Whig organ at Washington, and, it is said, *now the central organ of President Johnson*, in noticing the proceedings of the Convention which nominated Gen. Geary, says:

Under the engineering of Col. Forney at Harrisburg, tumultuous cheers were given for the notorious character above described. Nine cheers were also given for Congress. And Edwin M. Stanton was endorsed—the Secretary of War, who is the author of such hideous wrongs that in the forum of the people he has no defender, and who is now virtually on trial before the Supreme Court of the United States, with the infamous Butler for his counsel, upon an issue arising from unlawful military arrests and imprisonments. The acts of a fictious Congress, without "plan or policy," were also endorsed.

Against proceedings so replete with infamies, the friends of Andrew Johnson, with any tolerably careful and assiduous effort, cannot fail to succeed.

The candidate must sink under the rotten platform. It will drop in October, and fanaticism and political corruption will be suspended in the Keystone State.

The above item is *decidedly significant*. It shows that the position of General Geary is fully appreciated at Washington, as it is elsewhere.

☞ Hon. Edward Bates, of St. Louis, Mo., President Lincoln's Attorney General, has written an able letter in support of President Johnson's veto. He exposes the revolutionary object of the Freedmen's Bureau bill, and lashes its contrivers with an unsparing hand. The letter will appear in the next COMPILER.

☞ In private life, Hiester Clymer is one of the most genial and unassuming of men. In his home in Berks county, his popularity is unrivalled, while at the State Capital, among officers and citizens, he seems to be without an enemy. One of the best instances that we can relate on this point is the fact that on the evening of his nomination most of the Republican members called at his room to congratulate him upon his nomination. Senator Lowry appeared especially gratified, and, clasping Mr. Clymer's hand, exclaimed: "I am your political enemy, but am proud to be your personal friend. I congratulate the Democracy on having nominated an honest man.—I shall have to oppose you on party grounds, but I shall everywhere proclaim it that you are an honest man."

☞ The Pittsburg *Gazette*, one of the most rabid negro-suffrage journals in Pennsylvania, speaking of the nomination of Hon. Hiester Clymer by the Democratic Convention, pays him the following compliments:

His family have for several generations been settled in this Commonwealth, and members thereof have at times borne conspicuous parts in public affairs. One of them was a signer of the Declaration of Independence, and under the articles of Confederation served as a member of Congress. He is possessed of wealth and enjoys a high social position. An active business man, he has participated wisely and liberally in many enterprises for the development and prosperity of that portion of the State in which he resides. Though a leading man in his party his abilities are not extraordinary. He has, however, a pleasing presence and address, and a reputation that does not connect him with unclean legislation.

☞ The New York *Herald* says the issue in this State is not between Clymer and Geary, but between Johnson and Thad. Stevens. It might have gone further and said between Johnson and Union and Stevens and disunion; for every vote cast for Geary will be in support of the Stevens negro-disunion plan.

☞ Office-holders now crowing for Geary may change their tune before the October election. President Johnson may take it into his head that he can't afford to lose Pennsylvania from the support of his policy, and he knows full well that in the election of Geary Thad. Stevens would triumph.—"Look before you leap."

☞ Forney, "*d. d.*," says that Mr. Clymer "places himself broadly upon the platform of Andrew Johnson, President of the United States—in fact, it is as the Andrew Johnson candidate he proposes to run for the suffrages of the people." Well, as a true friend of the Union, is not that sufficient to command for him the suffrages of an intelligent and patriotic people, who are tired of negro agitation, who are sick of demagogue rule, and who long for the "piping times" of peace and prosperity?

☞ The Huntingdon *Journal* says: "The course of Andrew Johnson affords us another fearful warning of the danger of trusting any man who has been rocked in the cradle of slavery or nursed in the lap of modern Democracy." How in the world can that organ support Geary? And yet it has his name up.

☞ Hawley, the Rump candidate for Governor of Connecticut, thanked God, to a negro regiment, the other day, that the war had settled that "the black man is entitled to the rights and privileges of the white man." Yes, but it hasn't.

☞ Treason is a crime and must be made odious! Such was Andrew Johnson's declaration last April.—*Sunbury Gazette.*

Exactly, and if we are not greatly mistaken, he is making some of your disunion traitors a little more odious than you would like them to be.

More of the Irrepressible Conflict.

The Chicago *Republican* heads the President's speech with this startling caption: "The Nation Disgraced; Andrew Johnson's Downfall; His Revolutionary Harangue; The Republican Party Traitors; Government Usurped by Directory; Congress Declared in Rebellion; Its Leaders Denounced by Name; Appeals to the Mob; A Painful and Humiliating Spectacle," and says on the subject of assassination:

"The President stands in mortal fear of his life. In his harangue to the mob, he charges the men who have opposed his policy with 'having assassination brooding in their bosoms,' and asks if one martyr will not suffice. Mr. Johnson may dismiss his fears; he has passed the point of danger."

What is meant by passing the point of danger? What was the danger, and when was it passed? The Chicago *Tribune* reminds the President that he—

"Attained his present position solely by the too skillful aim of an assassin, a fact which ought to make him modest in the discharge of his duties. Being the accident *of an accident, and not* the choice of the people in any sense, it ill-becomes him to lecture members of Congress."

The *Troy Whig* cries wo! wo! and prophecies the fall of the Republican Illium! The party is to be broken "on the wheel." State by State is to shoot madly from its sphere! The convulsion will not stop here; but—

"Pennsylvania, already divided in her Union Congressional vote, the Keystone of the Republican arch, will fall from her high political state as the fabric crumbles! New York, that swarmed with copperheads and traitors even during the war, with her Congressional counsels now divided, will also pass from the control not only of the Radical but of the Conservative Union men of the State. Connecticut will follow suit.

"The Union party will be a myth—an inanimate thing laid away in the mausoleum of the past—and its rare accomplishments will be all of the living that remains to us. The Union leaders who are invoking this storm will go down before its fury, and the places that knew them once will know them no more forever."

A Unionist's Reward.

The following is the reward bestowed upon Senator Cowan by the so-called Republican State Convention, for his manly defence of President Johnson, and his devotion to the Union and the Constitution of the people:

"17. *Resolved*, That the Hon. Edgar Cowan, Senator from Pennsylvania, by his course in the *Senate* of the United States, has disappointed the hopes and has forfeited the confidence of those to whom he owes his place, and that he is hereby most earnestly requested to resign."

The crazy adherents of the [illegible]tionist, Thad Stevens, can rely upon that when Mr. Cowan does resign it will not be at the bidding of the Rumpers.

Trouble in the Republican Camp.—Movement for a New Party.

A Washington letter to the New York *World*, written on Tuesday, says:

A pretty extensive movement is on foot here, which includes both Senators and members of the Republican stripe, in favor of a new party. It is said that Ohio is leading off in the matter, and that several meetings have already been held, and the matter fully discussed. The President has been consulted in regard to the matter, and, it is said, approves of the idea. The principles of their faith is the President's policy.

Another Radical Removed.

The radical postmaster at Forestville, Conn., has just been removed for speaking disrespectfully of the President. There is reason to believe that more of the same sort will, ere long, be invited to retire. Government office-holders here, of radical proclivities, are remarkably reticent on political matters. The impression has been created that the departments are to be purged of all such. Hence their silence.—*Washington Letter.*

No Back Down.

The President stated recently to delegations from Maryland and Kentucky, that he had taken his stand, and would make no step backward in the work of reconstruction.

☞ Mr. Clymer's abilities as a speaker are of the foremost order. He has a clear voice and an impressive manner, and his personal appearance being very fine, few men excel him in their effect upon an audience. His speech accepting the nomination was an effort of oratory which we have never heard excelled, and seldom equalled. It electrified his hearers, and among that vast audience, surpassing in numbers and enthusiasm any we have ever seen in attendance upon a State convention, there was not one who did not feel his courage revived by its eloquence, and his breast filled with emotions of earnest confidence that with such a leader, and in such a cause, there was no possibility of defeat.—*Erie Observer.*

☞ The Philadelphia *Age* says, some of the Republican journals, in announcing the nomination of General Geary for Governor, are recapitulating his immense services *in the field*, as a military hero. They have not, however, got as far back as the period of his service in California as "Alcalde." Won't they enlighten the public upon that subject? Or shall we?

☞ The whole course of President Johnson since taking his office, has been at variance with the principles and measures of the Union party.—*Erie Gazette.*

Has it, indeed? How comes it, then, asks the Observer, that every convention of your party, up to within a few weeks, endorsed his policy, and claimed to be his especial friends? Was it only a hypocritical friendship, for the purpose of obtaining votes by the use of his name?

☞ President Johnson has put the Radicals on the defensive. His appeal to the people was not taken in vain. It has been answered already, and the *arrogant faction* which controls Congress has been driven to explain and justify the mad measures for which, but a month ago, they haughtily demanded submissive and unquestioning acceptance. Mr. Stevens still bullies his followers, but has lowered his tone toward his adversaries. Mr. Sumner practices milder gestures, and leers in less tragic fashion before his glass. A power which these gentlemen entirely ignored in their political calculations has suddenly made itself manifest, and threatens ruin to all their cherished schemes of party domination and individual aggrandizement. They had almost forgotten that a "people" existed.—*Age.*

☞ The Lewisburg *Chronicle*, a disunion sheet, heads an article on the state of affairs, *as follows*: "President Johnson on a Bender." That may be all right. President Johnson is on a bender. He means to *bend* the disunion traitors into the line of the Union, or break their backs in the effort.

☞ We congratulate John Cessna on his great success. Few persons who take the downward course in politics reach the bottom quite as soon as he has reached it.

A POLITICAL TRIMMER.

From the Carlisle Volunteer.

General Geary, the Cameron-Stevens-Forney candidate for Governor of this State, is a good specimen of the political trimmer. He is all things to all men, and true to none. Until quite recently he was in correspondence with leading Democrats in all parts of the State, and in his letters he declared himself "a life-long Democrat." Below we publish one of his letters, addressed to a prominent Philadelphia politician. As will be seen, it was written *only seven months ago*, after the rebellion had been crushed, and after he had returned to civil life. At that time, it will be observed, he affects modesty, and intimates that he is too poor to accept a nomination for Governor; but yet he takes occasion to assure his friend that he is a Democrat, "without any prefix or affix whatever." The "P. S." to his letter—"come and see me *soon*,"—affords evidence that Gen. Geary wanted to see his Democratic friend in his own parlor, to talk the matter over more fully and in a confidential way.

We are warranted in asserting, then, that it was only after Gen. Geary was convinced that he could not receive the Democratic nomination—only after he received no encouragement from the scores of Democrats with whom he had been in correspondence—that he turned his attention to the men he had all his life opposed and despised. It was after he found that under no possible contingency could he expect a nomination from the Democratic party, that he commenced hobnobbing with the leaders of the Jacobin-negro-equality faction—a faction now in open revolt against the Government; a faction that requests Senator Cowan to resign, because of the unpardonable sin he committed in desiring a whole Union. He made his point—he received the nomination of the pie-bald party—but the people, thank God, have yet to speak, and this time they will speak their honest sentiments, without the fear of Provost Marshals or loathsome bastiles before their eyes. They will speak at the POLLS in a voice that will teach Mr. Geary and all other political trimmers, that they are not to be deceived by wily tricks, or blinded by professions that are only made to mislead and deceive.

But, to the letter of Gen. Geary. Observe its date—August 14—just seven months ago. Other letters of a still more recent date, addressed to prominent Democrats by the General, will be brought to light before long:

NEW CUMBERLAND, Cumb'd. Co., Pa.,
August 14, 1865.

S—— M——, Esq.,—DEAR SIR: Having been absent and just returned, I have the honor to find your two letters, viz: That of the 26th ult., covering your excellent letter of S—— J——, and that of the 3d inst., from Connellsville. The subject matter of both, and of the letter enclosed, has been carefully noted, and for the fraternal manner of its presentation I feel deeply indebted to you.

I feel assured you will bear me testimony, that I have never personally aspired to the honor of the Chief Magistracy of the State of Pennsylvania, for which position you have the kindness to indicate my name; and, further, that when it has been a subject of conversation, that I have instinctively shrunk from the responsibilities it imposes upon its possessor. I have never been an aspirant for that honorable position. I never have, directly or indirectly, given my consent to any person or party to use my name for it. Therefore, I am perfectly free from any *entangling alliances* on the subject, and frankly say to you, that if the nomination and election were laid at my feet, I would still feel my inability to fill so high a position with that exalted capacity and sparkling intellect which is so eminently desired in the Executive chair. *Impressed with the considerations to which I have just glanced, to which I may superadd, the* WEALTH *with which it seems necessary for the candidate to possess is not mine, I must, therefore, AT PRESENT, decline to be considered a candidate.*

I have been a life-long Democrat, and am still a Democrat, in the truest and most ample construction of the word and meaning of the term, without any prefix or affix whatever, maintaining all the immutable truths which underlie the superstructure of our form of government, in all their length and breadth, height and depth—not as mere abstractions, but as active, positive vitalities, invigorated by the greatest intensity of patriotism.

This letter has been written in haste for your own inspection only.

Again thanking you for your many kind expressions, I have the honor to be truly, &c. Fraternally yours,

JOHN W. GEARY.

P. S. Enclosed is Mr. Jenkins' letter. Come and see me soon.

Another Amendment.

It is rumored that a prominent member of the Committee on Reconstruction has prepared and means to offer in Congress, in a few days, the following additional amendment to the Constitution:

ARTICLE XCV. That no State shall be admitted to representation in Congress until, by a provision embodied in its fundamental law, it pledges its citizens never to claim restitution of any pianos, watches, finger rings, spoons, silk dresses, books, pictures, sideboards, wines, liquors, carriages, and other portable property which may at any time, under the pressure of military necessity, have been transferred, shipped, removed or carried away from their residences, cellars, grounds, out-houses or stables, and delivered into the care and keeping of loyal citizens of New England—and all persons claiming or asserting title to any such portable property so removed, shall be excluded from the basis of representation, and are forever disqualified to hold any office of trust or profit under the State or General Government.

☞ The Rumps are greatly distressed since the nomination of Hiester Clymer, at the abuse, which they allege, the "copperheads" heaped upon Andrew Johnson. These are the same parties, who, for the past two weeks, have been exhausting their vocabulary of abuse in speaking of the President of the United States, one of whom—the editor of the Philadelphia *Press* and Washington *Chronicle*—distinctly charged him with being drunk on the 22d of February, and characterized his speech upon that day as an exhibition of "maudlin malevolence" and "staggering logic!"

☞ Joe Hooker says Gen. Geary is an "humble man." When the School Convention met in this city, a gentleman informs us the General was requested to go in and make a speech, but he declined because "his dress parade uniform was down at New Cumberland!" Very "humble"! the General, indeed, but his humility hasn't hurt him much.—*Patriot & Union.*

☞ President Johnson has directed the heads of the several departments to withdraw the advertising patronage of the Government from Forney's Chronicle, which has taken a decided stand against the policy of the administration.

☞ Colonel Bowers, Adjutant General on General Grant's staff, was instantly killed on the 6th inst., at Garrison's Station, while attempting to get on a train on the Hudson River railroad.

☞ James M. Wells, Esq., Democrat, was elected Mayor of Millville, New Jersey, on Tuesday last, by eighty-nine majority.—This is a change of some sixty votes since the previous contest in that place.

☞ It is evident that the Union party cannot go with the President.—*Erie Gazette.*

Then it is "evident" that, according to your logic in the past, it must be an enemy of the "Government."

☞ John Brown's soul now finds some difficulty in "marching on."

TOWN AND COUNTY.

Items Solicited from all Parts of the County.

FIRST OF APRIL.—We have some debts to meet the coming first of April—"war debts." In order to do so, we must ask a "lift" from those indebted to us—and hope that NONE will fail to "respond to the call." If those who owe us for job printing and advertising (which in most places are now cash) would settle promptly, it would be much of a "help." We trust that ALL concerned will do in this matter as they would wish to be done by.

HOUSE BURNED.—We regret to learn that on the 6th inst., the dwelling house of Jeremiah H. Bowers, in Butler township, caught fire, from a defective stove pipe, and was entirely consumed, with nearly all its contents, only a few bedclothes having been saved. Mr. Bowers had not yet succeeded in paying off the debt upon the property, and he and his wife were at the time absent trying to earn something towards liquidating it. The neighbors are assisting to rebuild the house, but more money is needed, and they earnestly call for contributions. Any amount, large or small, will be thankfully received. Address JEREMIAH H. BOWERS, Table Rock, Adams county, Pa.

BARNS BURNED.—The barn of Jacob Trego, in Dickinson township, Cumberland county, was destroyed by fire on Monday afternoon last. Three fine horses were burned to death, and large quantities of corn, wheat, hay, and farming implements, consumed. The fire was caused by a man shooting some chickens in the barn yard. Mr. Trego's loss is five or six thousand dollars—and unfortunately his policy of insurance expired a few weeks before the fire.

The barn of George Beltzhoover, in Monroe township, same county, was burned to the ground on Friday week—caused by the threshing machine catching fire, through friction, which at once communicated with the chaff and straw on the floor. Fifty tons of hay and straw, seven hundred bushels of oats, clover seed, a colt, a calf, and nearly all his farming implements, were destroyed. Loss about $5,000—insurance $1,500.

SHOOTING AFFAIR.—We learn from the Greencastle Pilot, that a shooting affair occurred in Mercersburg on Monday, the 5th inst. The circumstances as given in that paper are as follows: John Hoeflich and Harvey Mayhugh met at the sale of William Casey, during the day, and quarrelled. In the evening, about eight o'clock, they met at Mr. McAfee's hotel, and commenced quarreling again, and after a few words Mayhugh struck Hoeflich a severe blow, which knocked him down; on recovering his feet, Hoeflich drew a revolver and fired two loads at Mayhugh; one ball struck him in the groin, and inflicted a severe wound, while the other one passed through his clothing. Hopes are entertained of his recovery.

THE REYNOLD'S MONUMENT.—We are very glad to be able to inform our readers, says the U. S. Gazette, that the contract has just been closed on behalf of the Gettysburg Battle-field Memorial Association, for the purchase of about five acres, the eastern portion of the grove in which Major General John F. Reynolds fell. The Board of Directors of the association authorized the purchase of the grove for the association, and the tender to the committee of his corps of the spot on which the brave and lamented Reynolds fell, as the site for the erection of the historical column which it proposes to build to his memory. The offer has been communicated to the committee acting on behalf of the corps, and there can be little doubt that the commendable purpose, common to both the corps and the association, will soon be carried out by the erection on this site of a suitable monument to the memory of General Reynolds, one of the bravest men, one of the best officers, one of the most popular and most lamented generals of the whole war. Although the corps propose to make the memorial to Reynolds exclusively their own, the public at large will be enabled to contribute to the general purposes of the Battle-field Association, and to the particular fund required for the purchase of this piece of ground. No persuasion can be needed to induce our citizens to do their share in perpetuating the glories and the triumphs of Gettysburg, and the opportunity to do it in this way will be grateful to all of them.

GETTYSBURG GRANITE.—Mr. Hargrave, who had the contract to erect headstones over the fallen Union dead in the Gettysburg National Cemetery, transported a quantity of our granite to Philadelphia, and has constructed a splendid monument of it, to the memory of Dr. Thomas R. Wilson, of that city. The monument is 23 feet in height, and weighs 17 tons. The base is 5 feet square. It will be placed in South Laurel Hill Cemetery. It is beautifully executed, with a number of appropriate mottoes on it. The stone of which the shaft is composed is taken from the very spot where Gen. Meade had cannon planted during the great battle of Gettysburg. The stone has been pronounced by a number of prominent stone-cutters in Philadelphia to be the best in the market. The Inquirer is of opinion that the splendid Battle Monument to be erected in the National Cemetery should by all means be composed of Gettysburg granite.

THE RAILROAD TO NEW OXFORD.—Some months ago we stated that Mr. Gitt had completed his survey between New Oxford and the Susquehanna river. We understand that the importance of a connection with the Railroad at New Oxford is attracting the attention of the business men of East Berlin. We have heard some talk, within a few days past, that they intend having a survey made between New Oxford and East Berlin and to this place, in order to show the practicability of constructing a road over that route with as easy grades and as light work, as can be done direct from New Oxford to York by way of Abbottstown, and that the land damages would be less, and the route not one mile longer. Mr. Gitt has been over the route viewing it, and proposes to make the survey shortly. East Berlin contends that that route possesses many advantages over the other—not only in land damages, but in freight to the road. It would draw a large trade from near the Cumberland Valley road that the route by Abbottstown could not.—The people of East Berlin and vicinity are giving the subject their serious consideration, and quite a Railroad spirit is existing among them, with a determination to carry it out as far as it lays in their power.—[York Democrat.

RECORD YOUR DEEDS.—The attention of parties holding unrecorded Deeds is directed to the provisions of the Act of Assembly, which require that—

"All deeds and conveyances for real estate in this Commonwealth, shall be recorded in the office for Recording Deeds in the county where the lands lie, WITHIN SIX MONTHS after the execution of such deeds and conveyance; and every such deed and conveyance not recorded as aforesaid, shall be adjudged FRAUDULENT AND VOID against any subsequent purchaser for a valuable consideration, unless such deeds be recorded before the recording of the deed or conveyance under which such a subsequent purchaser or mortgagee shall claim."

This is a very important notice, and those holding unrecorded deeds will see the importance of having them recorded without further delay.

LECTURE.—It will be seen by a notice in another column, that Rev. Mr. Conrad will deliver his Lecture on "Washington," in St. James Lutheran Church in this place, on Monday evening, the 2d of April next.

☞ Don't forget the Fair for the Orphans, at McSherrystown, to open on Easter Monday, April 2d—nor the grand Dinner, for the same charitable purpose, on Wednesday, the 4th. The preparations are going forward very promisingly, and a splendid af-FAIR may be confidently looked for.

☞ Rev. J. R. Warner has recently been presented by the members of the Lower Marsh Creek Congregation with a purse of about eighty dollars, and by the other branch of his charge, the Hunterstown Congregation, with a purse of about fifty dollars. Such expressions of good feeling are always gratifying all round.

☞ Mr. R. F. McIlheny has disposed of his farm in Highland township, being a portion of the McIlheny Mill property, to Dr. Robert Horner, of this place. It is the Doctor's intention to build and improve the property.

Mr. Jacob Sourbeer has sold his property in Berwick township to Mr. Reuben Wolff, for $1600 cash.

☞ The somewhat celebrated horse, "Charles Harris," purchased in Kentucky, by the Cumberland Co. Agricultural Society, seven years ago, at $1,000, was sold at public sale, in Carlisle, on Thursday week, for $300—Judge Watts purchaser.

☞ The following persons have been re-elected officers of the Gettysburg Gas Company:

President—M. Jacobs, D. D.
Managers—H. D. Wattles, A. D. Buehler, J. B. Danner, T. D. Carson, E. G. Fahnestock, D. McConaughy.

☞ Rev. S. A. Francis, late of Trinity church, Passyunk, has accepted a call to the Petersburg (Y. S.) Lutheran charge.

☞ Hon. A. H. Coffroth has our thanks for Congressional documents.

BOROUGH ELECTION.—Last fall the Republicans carried this Borough by 100 majority. On Friday last the Democrats elected one Town Councilman and a Constable, and came near electing several more. We may well claim that this result is "not bad for Gettysburg." The following are the figures:

Dem.		Rep.	
	Burgess,		
W. E. Biddle,	118	R. G. McCreary,	215
	Town Council,		
Charles Ziegler,	190	Geo. A. Earnshaw,	186
Wm. J. Martin,	157	David Warren,	188
Wm. H. Culp,	179	Perry J. Tate,	163
	Justice,		
Jacob Bushey,	149	Peter Myers,	225
	Judge,		
C. Daugherty,	151	David Sweeney,	221
	Inspectors,		
J. Jeff. Myers,	157	Robert Tate,	217
	Assessor,		
Wm. D. Holtzworth,	179	Wm. F. Baker,	196
	School Directors,		
Edward Menchy,	161	D. A. Buehler,	205
Robert McCurdy,	165	Hiram Warren,	207
	Constables,		
Michael Crilly,	196	John Barrett,	211
		George Weikert,	175

In Cumberland township, the Democrats elect Wm. E. Myers Judge by 17 majority. The Democratic School Directors have upwards of 20. The whole Democratic ticket is elected except a Supervisor and the Clerk.

Straban elects the whole Democratic ticket by from 30 to 35 majority.

Butler goes Republican by about 20.

In Mountpleasant the Republicans have not had a ticket at a spring election for several years, and the elections have therefore been very small. On Friday last, they appeared in the field with one, probably hoping to catch the Democrats napping, and thus partially or entirely succeed with their Know Nothing game. But a defeat by nearly 100 was what they got for their pains, the whole Democratic ticket succeeding by nearly that majority. So anxious were the Republicans in that township for office that they ran no less than four candidates for Constable!

The Democrats of Franklin did a good day's work, electing their Justice (Robert McCleaf) by 100 majority, their Constable (George Lady) by 99, and their Judge (John Brady) by 80. The latter is about the figure at which the whole Democratic ticket was elected. A friend in the township informs us that Mr. McCleaf's majority was never exceeded in the township by any party.

The Republicans elected their ticket in Hamiltonban, but for several of the candidates the vote was very close.

The Republicans carried their ticket in Mountjoy, except the Constable. Majorities small.

We are told that the Democrats carried Conowago. Also Liberty. These are all the returns we have.

The names of all the officers elected in the different townships and boroughs will appear in our next.

ENDORSING PRESIDENT JOHNSON.—A large and spirited meeting, irrespective of party, was held at the house of Robert M. Dicks, in Hampton, this county, on Saturday, the 10th inst., to endorse the policy of President Johnson. Jacob Miller, Esq., was called to the Chair, and Dr. A. Holtz appointed Secretary. The following Committee was appointed to draft and report resolutions expressive of the sense of the meeting: Dr. C. E. Goldsborough, Howard Dicks and Jacob Taughinbaugh.

After retiring a short time, the Committee returned, and reported the following preamble and resolutions, which were unanimously adopted:

WHEREAS, We, citizens of Reading township, Adams county, Pennsylvania, in meeting assembled, feeling it to be our privilege as well as duty to give our feelings expression upon the great issue that has been caused between the majorities in both branches of the United States Congress, and Andrew Johnson, President of these United States; and

WHEREAS, Certain parties are disposed, in spite of truth and justice, to misrepresent and slander the President for the exercise of his official prerogative; therefore, be it

RESOLVED, That we heartily endorse the President's late veto of the Freedmen's Bureau bill, as a just, honest and worthy act. As brave as it is right, it has our unqualified approval and admiration.

RESOLVED, That we fully endorse the Reconstruction policy pursued by Andrew Johnson, for the restoration of harmony and peace, and Union and Constitutional liberty, in our land.

RESOLVED, That we never having recognized a dissolution of this Government and Union of States, we are not now willing to do it; and condemn all such as do as Traitors, Demagogues and Shoddyites.

RESOLVED, That we do not recognize in Andrew Johnson the President of any particular party or section, but the impartial President and Chief Executive of the whole and undivided United States of America; and as such we extend to him our support and encouragement.

The meeting adjourned with three cheers for Andrew Johnson.

☞ On the 21st inst., the bogus Senator reported in the Senate, an act to authorize the town council of the borough of Gettysburg to borrow money and collect taxes; also,

An act to incorporate the Gettysburg Lithia Springs association; also,

An act to release and vest the interest of this Commonwealth in the estate of Samuel Sadler, jr., deceased, late of Adams county, in the brothers and sisters of the half blood of said decedent.

☞ In the House, at Harrisburg, on Monday, Mr. Houck read in place a bill relative to citizens *of Adams county, who suffered* by raids during the war.

☞ On Thursday the bogus Senator read in place an act to incorporate the Gettysburg and Allegheny Railroad Company.

☞ Petitions from this county have been presented in the Legislature, praying for a change in the license laws so as to provide for the punishment of minors for procuring and drinking intoxicating liquors at public houses.

NEW COACH FACTORY.—It will be seen by their advertisement in another column, that Messrs. Tate & Culp have opened a new Coach Factory in this place, with a view to prosecuting the business on a more extensive scale than it has been carried on in this place for many years. They are both master workmen, of long experience, and any work turned out from their establishment can be relied upon as being of superior make—both in regard to beauty and durability. They are prepared to put up every description of work, and attend to repairing at the same time.

SOMETHING NEW IN CARLISLE.—They have a Wholesale Grocery and Queensware Store that proposes to "fit up" any New Store that may open this Spring, with all they may want in their line, at Importers' and Manufacturers' prices. Remember you will save traveling expenses, boxing, porterage, freight, &c., by buying from WM. BLAIR & SON, South End, Carlisle, Pa.

N. B.—All unsatisfactory goods may be returned and the money refunded. [Feb. 26. 3t*

☞ Stock in the 1st National Bank of Gettysburg is looking up. 5 Shares were sold at public sale, week before last, belonging to the estate of Emanuel Butt, deceased, at $109 75 per share—par $100.

☞ Blank Deeds, of the different forms, with all other Blanks, printed with new type on good paper, for sale at the COMPILER office.

AN "EARTHQUAKE!"

It is reported that Bergner has been removed from the Harrisburg Post Office, and Col. Gnipe appointed in his stead.

☞ Gen. Frank. Blair has been appointed Internal Revenue Collector at St. Louis.

Office holders, speak out—who are you for—Johnson or Stevens? The President will be satisfied with nothing but an open and bold support.

☞ Who would be a Disunion Dead Duck? If any there be who desire to bear this new political appellation, let them follow the lead of Stevens, Sumner, Wendell Phillips and Forney, the first three of whom the President of the United States denounces as Disunionists, while he scornfully styles the last named, who is their fugleman, a "Dead Duck!"

☞ Rev. Alexander Campbell, the founder of the sect known as the "Disciples of Christ," and popularly denominated "Campbellite Baptists," died, a few days ago, at Bethany, Va. Bishop Campbell was an eminent scholar, and one of the greatest controversialists of the age.

☞ The rupture between the President and the Radicals is now openly declared by "that man at the other end of the avenue," as Mr. Stevens contemptuously styles President Johnson.

☞ The Republicans have carried New Hampshire, as was expected, by about 5,000—a reduction of 2000.

☞ Governor Curtin is at Washington, and tells his friends he will support the President. "Things *is* working."

☞ Forney is only a *quack* D. D.

"DEMOCRATIC YORK!"

The Democrats of York borough won a big victory on Friday, carrying four of the five wards, and re-electing David Small, Esq., Chief Burgess, by the unprecedented majority of FOUR HUNDRED AND ONE!

HARRISBURG TOO!

The Democrats of Harrisburg, on Friday, elected Oliver Edwards Mayor by 147 majority! Last year the Republicans carried the city by a majority of three.

☞ The logic of the radicals is somewhat defective. A year ago they denounced every man who adversely criticised the President's policy as a "copperhead" and a "traitor."—Now they assail with the same epithets men who favorably comment upon the action of "the government."

A New Dictionary Wanted.—Senator Cowan said in his late speech that a loyal man is one who submits to the laws. The Philadelphia *Bulletin* takes exception to this answer, and says that the "mere submission to law does not constitute loyalty." What in the name of Heaven, does constitute loyalty, if submitting to the laws of the country does not?

SPECIAL NOTICES.

Allcock's Porous Plasters.

A celebrated physician says: he was amazed at the great number of beneficial indications produced by one of these plasters. He affirms that *headache* is cured by one worn just below the breast-bone; that one placed over the navel will cure hysterics, as well as dysentery, and affections of the bowels."

CURE OF VARICOSE VEINS.
City Point, Va., Jan. 24, 1865.

T. Allcock & Co.—Seeing your notice in the Police Gazette, I got four of your Porous Plasters and placed them on the parts where the pains were most severe, and in less than twelve hours could walk as well as ever. I could hardly believe it, I was so well pleased. I wanted to see if the lameness would come back on me or not so I did more walking that day than I had done in a week. The next day I had some pain in my hip, but I put on a plaster there and in two hours the pain was all gone, nor have I felt it since. Certainly they are the best application for the relief and cure of pains in the joints and back, and for varicose or enlarged veins, I have ever known, and I would not be without them on any account. Yours, truly,

Dr. S. I. Tobias, New York: Dear Sir—I have used your Venetian Liniment with great success, both as an internal as well as an external medicine. Handy in the House.

Of all the things which are really "handy to have in the house," believe us when we sincerely assert that the most useful and most valuable is a 50 cent Bottle of Radway's Ready Relief. We say this deliberately, conscientiously, and without fear of contradiction on the part of any one familiar with the extraordinary virtues of that popular medicament.—From a bruise to a pain in the bowels, from a cut to a cholic, from a sprained ankle to an attack of dysentery, from a mere cold to severe convulsions, from a sore finger to the rheumatism, from diptheria down to deafness, and from a pimple on the face up to a paralysis of the limbs, there is no case in which Radway's Ready Relief will not remove the pain as soon as it is applied, and remove the disorder altogether in a manner most surprising as well as truly expeditious. Rubbed on the afflicted part the relief experienced is immediate.—Taken internally in sweetened water, (say a teaspoonful to a wineglass of water) it instantly *annihilates a pain in the stomach*, quickly cures a diarrhœa, destroys all inflammation and restores health. The Ready Relief is prepared from so many of those little ingredients common to the family household, that it is positively indispensable to the prudent wife and careful mother. For females especially it is a "blessed gift," and one susceptible of use in nearly all their peculiar difficulties and derangements. For children it is even just as admirable a mixture yielding them of aches and pains, and healing up the manifold soresnesses with a miraculous ease and celerity.—For men it is a never-failing resort of comfort and relief in a thousand instances among the daily ills "which flesh is heir to." We would earnestly impress it upon the public mind that a bottle of Radway's Ready Relief is the cheapest as well as the best article to have "about the house" ever presented, saving at an expense of 50 cents many a five dollars, which would otherwise have to be paid for the attendance of a capable physician. The Ready Relief is a whole apothecary shop in itself. It is good health put up in a bottle for everybody's use, who is wise enough to avail themselves of its services. Sold by Druggists.

Lyon's Periodical Drops!

The Great Female Remedy for Irregularities.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable, speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest, and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine.

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Sold by Druggists everywhere.

THE JOHN W'S.

These two, *John W. Geary* and *John W. Forney*, have bound themselves in mutual suretyship. Forney is in heavy bonds that Geary, being a Democrat, shall not betray the Republicans; and Geary has given an indemnity that he won't turn Forney out of the Executive Mansion, or give him an ugly name.—*Age.*

Another Veto.

Governor Curtin has vetoed the Philadelphia and Erie Railroad bill. The veto takes the ground that the privilege accorded the Philadelphia and Erie Railroad is an infringement of private rights, and that its operation would be conducive to the fostering of monopolies instead of the promotion of the general prosperity.

Great Robbery in New York.—The banking house of Rufus Lord in Exchange Place, New York city, was robbed on Saturday week of $1,500,000 in Government and other securities. Two hundred thousand dollars reward is offered for the detection of the thief.

The Missouri jayhawkers, have a bill before the Rump Senate, providing for the payment of $5,675,000 to the "Missouri militia," for "services" rendered the Government. If those law-defying, God forsaken niggerites and murderers haven't stolen enough from the people of Missouri to keep them comfortable for life, it is a mystery.

Mr. Peterson, the individual in whose house President Lincoln died on the 15th of April last, in Washington City, has re[illegible] a claim against the Government o[illegible] $[illegible]3,50 for damage done to his property on that occasion.

Just the Thing the Ladies Want.

I have but one string to my harp,
'Tis this—'twill make dull scissors sharp;
Of its great worth I'll briefly sing,
[illegible] it is *just the thing*:
'Tis made of walnut, steel, and brass,
And like a diamond will cut glass;
'Twill cut the dullest scissors, too,
And make them work both sharp and true;
'Tis like a toy thing, plain and neat,
And in effect 'tis most complete—
'Twill save a vast deal of expense—
Thus it appeals to common sense;
It is, to my poetic mind,
The very best thing yet to grind
The dullest scissors to be found,
In every clime the world around.

New Goods at Grimes's.

JAMES A. GRIMES, in York street, Gettysburg, has just received a large lot of new GROCERIES, &c., which, having bought for cash, at the latest reduced prices, he is prepared to offer cheaper than they have been sold here for several years. His assortment is very full, embracing the most choice articles in his line, to prove which he asks his old customers and the public generally to call and examine for themselves. His

COFFEES, TEAS, SUGARS,
SYRUPS, MOLASSES,
FRUITS, NUTS, CONFECTIONS,
TOBACCOS, SEGARS, &c., &c.,

he is certain will please all who may try them, and he therefore asks purchasers, from town and country, to give them a trial before buying elsewhere. He is determined not to be undersold by any other establishment.

His large stock of

FANCY ARTICLES

is kept full by constant additions, and everything in that line can at all times be had good and cheap. Indeed, he flatters himself that his Store, containing as it does so large a variety of Goods, all new and in the best condition, cannot but be looked upon as among the most attractive in town. By attending closely to business, and selling at small profits, he is doing a handsome business, and will spare no effort to increase it by giving satisfaction in all cases. [March 19, 1866.

Barron's Safety Lamps,

AND

LIG-RO-INE (Red) FLUID.

PATENTED.

THIS Lamp apparently burns *without anything to feed it*. It has, however, a material which absorbs the liquid and gives it to the flame, partly from the wick, and partly in the form of gas, but so as to produce perfect combustion, and is very economical and safe.

It is used without a chimney, and perfectly trimmed, does not smoke or smell; it is therefore especially adapted to the purposes of a hand lamp, night, nurse, shop or hotel lamp, or lantern. The cost of broken chimneys, alone, will more than pay the cost of this lamp. Every family needs one or more.

"It is just what I have been long looking for," writes a model house-keeper.

"I should hardly know how to do without it," writes another.

"A perfect contrivance," writes a third.

"Let those who are skeptical try it," writes a fourth.

With increased facilities for conducting our business, we are better prepared than ever to satisfy the wants of all those who may need anything in our line. We especially call the attention of Farmers and others to the superior quality of our

Soluble Pacific Guano.

200 LBS. SOLUBLE PACIFIC GUANO contains 70 lbs. *animal matter*, yielding 7 to 8 lbs. *ammonia*.

Also 80 to 90 lbs. *earthy bone Phosphate of lime*, 30 lbs. of which are *soluble phosphate*.

It combines all the advantages of the *best brands* of Super Phosphate, with those of Peruvian Guano.

By reason of its greater *concentration*, we recommend 20 per ct. less by weight to be used per acre, than of any fertilizer costing the same per ton; and no more per acre than of those selling at 20 per ct. more per ton.—Hence *its economy*.

This guano weighs 65 lbs. per bushel, hence in applying it farmers must be governed by weight and not by bulk, for it is much lighter than the Super Phosphates. *Every cargo duly inspected.*

"Flour of Bone."

WE will give a *money* guarantee of the *purity* of this article. It is pure *unsteamed, unburnt bone*, reduced to the *fineness of flour*, which adds 100 per ct. to its value. It is as *quick and active* as acid *dissolved bone*, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. We recommend 250 lbs. to be used in place of 300 lbs. Super Phosphate or dissolved bone.

Another Great Cure

IN THE CITY OF NEW YORK,

Of a highly respectable citizen, well known to the Mercantile community, by
DR. J. H. SCHENCK,
THE GREAT LUNG DOCTOR OF PHILADELPHIA.

Office N. Y. and Galena Lead Co.,
No. 28 Nassau St., N. Y., June 1, '65.

Dr. J. H. Schenck—Dear Sir:—For over fifteen years I have been troubled with a severe cough, and usually two or three times a year with more or less hemorrhage, which together, for the last few years, has kept me thin in flesh and too weak to do business of any kind without suffering. In August last I had a very severe hemorrhage, and, according to the judgment of a good New York physician, I was classed as beyond the reach of medicine, and was advised to be prepared, so far as property matters were concerned, to leave this world at short notice. The physician (and my good friends) said that the first cold I took must prove fatal. Early in January I took a severe cold, and fortunately was occupying rooms at No. 22 BOND STREET, directly over your office. I think about the 10th of January I procured a bottle of your Pulmonic Syrup and commenced taking it freely. My feet and limbs were very much swollen, and all the symptoms of a speedy death seemed to accompany my cold. I sent for my former physician, and stated to him that I was taking your medicines, and after showing them to him, and having tasted of them &c., he replied: "You can take them if you like, they will do you no harm." He said, "You know what I told you last summer, and I say the same now, if you have any business to close up, do not put it off." He said to other friends that he could see no hope for me," and my friends and relations concluded my time had come. At this time I was taking freely of your medicine, but had not seen you. The doctor called a few times, and found me (much to his surprise, he said,) improving, and he could not understand why. My faith was increasing in your medicines, and I had a wish to have you examine my case, and see what you had to say. When you first came to my room and made the examination, you gave me but little encouragement, but on the contrary, expressed some doubts, of my ever being helped out of my then alarming difficulties. The second time that you called, finding me still gaining, you gave me encouragement, saying, that symptoms were improving, the Pulmonic Syrup, Sea-weed Tonic and Mandrake Pills had acted like a charm." My circulation, my cough, my appetite, all began to improve, and I could walk about my room a little. You visited me nearly every Tuesday, and found me still gaining, and told me not to go out of my room until the first day of May. I took no cold while under your treatment, my appetite became first-rate, and you told me to eat everything I wished of a nutritious nature, and to exercise about the room as much as possible. I followed your advice, and to the surprise of my old physician and friends, I seem much better than I have been for several years, and breathe better than I ever expected a person could with one lung, the left being completely dried up. I feel very grateful to you, and consider your advice and medicines invaluable.

Yours, truly, T. S. SHELDON.

Dr. Schenck—Dear Sir:—About two years ago I was taken with a very troublesome cough and a pain in my breast; seven or eight months passed away without my doing anything for myself. Then I applied to a physician, who attended me for about three months without rendering me any service. I also obtained the advice and treatment of a physician in one of our hospitals, and also had the advice and treatment of two other physicians, but all to no purpose. During this long space of time I was nearly dead; several times my friends came to see me and witness my exit into the *spirit-world*. I was confined to my bed two months at one time. My breathing was exceedingly short. I gave up several times all hope of getting better; and as regarded getting well, that was entirely out of the question.—And to think this day I am well and hearty!—I was advised by some of my friends to try Dr. Schenck's Medicines. I accordingly bought bottle after bottle, until I reached the ninth; then I found a decided change in my cough for the better. I suffered severely from palpitation of the heart, and two weeks after I commenced taking your medicine this difficulty ceased.

When I first went to Dr. Schenck's office it was with difficulty that I could get up into his reception room. I was so weak and so swelled; my skin was as sallow as though I had the jaundice; I felt dull, heavy and sleepless. Dr. Schenck, after examining me, said both my lungs were affected, and gave me but little hope; but his medicines, in about two weeks, took right hold of me; it seemed to go right through my whole system. The Pulmonic Syrup, Sea-weed Tonic and Mandrake Pills, all took right hold in the right place. The Pills brought away great quantities of bile and slime; the Syrup loosened the matter in my lungs, which came off very free; the Sea-Weed Tonic gave me an appetite, and everything seemed to taste good.

To show what great power the medicines have in purifying my system, and to show how bad I was diseased, beside all the bile that passed my bowels, and the great quantities of phlegm and matter I expectorated, I broke out all over in large boils, that would continue to gather and run for about six weeks, and I had at one time over twenty five boils. I have nothing of the kind now, and I feel like another person altogether. I can safely say that I have not enjoyed such health for five years as I do now, and cannot praise you and your medicines enough. May God abundantly bless and preserve you, is the sincere desire of one who has been so wonderfully relieved through your agency; and if any one desires to know with regard to the truthfulness of this report, if they will call upon any of my friends, or upon me, No. 1 Dryden Place, near Thompson street, below Cadwalader, Philadelphia, they will be perfectly satisfied with the validity of the case. Yours, with much respect,

MARY SCHMIDT.

The above case, as described, is perfectly correct. I know it to be true. Yours,

T. B. MILLER,
Pastor of Hancock M. E. Church.

Dr. Schenck will be professionally at his principal office, No. 15 North Sixth street, corner of Commerce, Philadelphia, every Saturday, from 9 A. M. until 4 P. M.; No. 32 Bond street, New York, every Tuesday, from 9 to 3; No. 38 Summer street, Boston, Mass., every Wednesday, from 9 to 3; and every other Friday at 108 Baltimore Street, Baltimore, Md.—All advice free, but for a thorough examination of the lungs with his Respirometer, the charge is three dollars.

Price of the Pulmonic Syrup and Seaweed Tonic each $1 50 per bottle, or $7 50 per half dozen. Mandrake Pills, 25 cents per box. For sale by all Druggists and Dealers.

ODDS AND ENDS.

News, Politics, Wit and Humor, and What Not.

Notice to Office-Holders.

The N. Y. *Tribune* has the following special dispatch from Washington:

The President declared last night to a party who applied for an official appointment that he could not have it without the condition of giving in his adherence to his policy in all its parts, and this requirement will be made in future cases of appointment to office under his administration.

We call the especial attention of Postmasters, Assessors, Collectors and Government officials, little and big, to the tenor of the above. Who are you for, gentlemen—Andy or Old Thad.? You know the Bible says you cannot serve two masters.

A Nice Present.

John W. Forney, D. D., received by express yesterday a small box which he imagined contained something of an interesting and precious nature—a nice present perhaps from some considerate and sympathizing friend. It was conveyed to his residence and there opened, when lo, a dead duck was revealed to his mortified gaze. Not a canvass-back, but an honorary puddle. The wrath of J. W. was at a high pitch, and we learn the duck was instantly thrown where Macbeth thought physic should go—to the dogs, of course. The above is a fact, nor will J. W. deny it.—*Washington Constitutional Union.*

☞A special dispatch from Washington to the New York *Commercial Advertiser* says that, in a conversation with one of the members of Congress from New York on Monday evening week, President Johnson declared that Congress had nothing to do with the admission of Southern members, except to examine their qualifications, the validity of their papers, and their loyalty to the Constitution and laws of the United States.

The President is also said to have remarked, with respect to the test oath, that he thought it too severe; that an oath to support the Constitution should be regarded as sufficient.

☞During the Republican State Convention, at Harrisburg, on the 7th, a slip was freely circulated by the Ketcham and Morehead men, containing a letter written by Geary to a prominent Democrat, [illegible] as August, 1865, in which he [illegible] at the probability of his future acceptance of a Democratic nomination for Governor, though declining to be a candidate at the time he wrote, and declaring that he was a life-long Democrat, and was still one. It created quite a flutter among Geary's friends, but Cameron had the Convention too well packed to be defeated even by this ugly shot.

☞It is not often that a living creature is wiped out of existence in nine short words. But it has taken just that number to put an end to John W. Forney. Somebody cruelly thrust him before Andy Johnson the other day, who wiped him out with this single remark—"I do not waste my ammunition on dead ducks." Not one little globe of shot, not even one grain of powder, to bestow upon the conceited ingrate who has for eight years abused all the good men he formerly professed to admire, and who had come to imagine himself a person of considerable importance. Poor Forney! "He is dead and by this time stinketh."

☞Congressman Kelly, of Philadelphia, declared in the Rump House the other day that he was in favor of striking the word "white" from the Constitution of Pennsylvania. Voters and taxpayers, that is where modern Republicanism is drifting. Have you a stomach for such leaders?

ANOTHER ADDRESS BY PRESIDENT JOHNSON.

WASHINGTON, Feb. 23.

This afternoon a committee of gentlemen from Philadelphia, under the auspices of the James Page Library Society, waited upon President Johnson to present the resolutions of a meeting held on the 22d of February, approving the restoration policy of the Administration, and the position occupied by the President. The committee consisted of John A. Marshall, (formerly of this county,) T. H. Hill, John A. Clark, J. P. Robinett, M. Heller, E. S. Eyre, J. F. N. Snyder, E. Fitzgerald and Dr. Joseph R. Coad.

Mr. Marshall said the meeting was without distinction to party, and in the course of his speech remarked: "We will stand by you, then, rather as conservative citizens than as partisans. We stand by you as Pennsylvanians, as Pennsylvanians always stood by Andrew Jackson, never losing faith in his honesty of purpose to do what was right and his power to do it, and never to submit to what was wrong, and his ability to prevent it."

The President responded as follows: I beg leave simply to thank you for the kindness you have shown towards me and the encouragement you have given me by your approbation of my public policy, as it has been presented to the consideration of the country. I can only say that I trust your confidence has not been misplaced, and I can but point you to my past course and to my public promulgation of the principles by which I am guided, as an evidence of what my future course will be. It now behooves every man to apply himself diligently to the task of understanding our real condition, the true remedy for all existing evils, by a faithful obedience and enforcement of the Constitution and the laws made in pursuance thereof.

It has been an object to find a healing plaster coextensive with the wounds that are inflicted on the body politic—the nation. We thought we had found it, and still thinking so, we shall pursue and persist in our policy until the result is accomplished, or it shall be defeated by a power over which we have no control. I thank you, gentlemen, for the approbation and encouragement you have extended to me on this occasion, and I repeat that I hope and trust your confidence has not been misplaced.

The various members of the committee were then introduced to the President, and retired, much pleased with their interview.

A Negro's Opinion.

We were quite amused while at Abbeville, S. C., in listening to a story told us by a gentleman from Mississippi in reference to the conduct of his freedmen. After the garrison had come to this place they circulated the story that in future the negroes ought not to work beyond five days in the week, and those upon the plantation, having learned the new revelation, refused to comply with the demand for working six days. Among the refractory members was one by the name of "Cid," who was a prominent member of the Church, and our friend tried to dispel the illusion under which "Cid" labored by appealing to his religious experience and acquaintance with the Scriptures.

"Cid, the Bible says, 'six days shalt thou labor;' do you believe it?"

"Yes, massa."

"The Yankees tell you that you shall labor only five days. Which do you believe—God or the Yankees?"

"Well, massa, dat's true; but den God is getting old, now-a-days, and de Yankees hab come up and altered de way of doing business."

Take Notice.

FARMERS AND DEALERS IN FERTILIZERS will please take notice that we have adopted the following Trade Mark to protect ourselves, and prevent those who use our RAW BONE SUPER PHOSPHATE from being deceived when purchasing manures.

We have been obliged to give this protection to our customers, in consequence of several parties having unlawfully used our distinctive name, viz: "Raw Bone," in offering their article to the public. This Trade Mark is adopted in addition to the title "Raw Bone," which is our exclusive property, and we caution all manufacturers from using it in future. We would state to the trade and consumers, that they will find it to their interest to see that the "Trade Mark" is upon every bag and barrel they purchase, as none other is genuine.

BAUGH & SONS.

TRADE MARK

BAUGH'S
RAW BONE

Super Phosphate of Lime,

Manufactured by BAUGH & SONS,
No. 20 South Delaware Avenue,
PHILADELPHIA.

The great popularity of our article has been found sufficient inducement to certain imitators to manufacture and advertise "Raw Bone Phosphates," a name which originated with us, and is our own rightful property. We will state for the information of all, that we are the exclusive manufacturers of this article—the original and sole proprietors of it—having been manufactured by us for a period of twelve years. Also that it is covered by several letters patent, held only by ourselves.

We are now ready to supply it in large quantities—having made recent additions and improvements. Vessels drawing 16 feet of water can load directly from the wharves of the works, which are located at the foot of Morris Street, Delaware River. We call the attention of DEALERS to this great advantage.

The present indications are that we shall have a greatly increased demand over last spring and fall seasons, and we advise Farmers to send in their orders to their respective Dealers at an early day, that all may be supplied promptly.

Soliciting your continued orders,
We remain,
Yours very truly,

In addition to the above every picture will be neatly tinted without extra charge.

There is a feature in the above to which I wish to direct special attention, viz: I will make four Vignettes, or three plain pictures from the first negative. Heretofore it has been a rule not to make less than six of one and four of the other.

I take this opportunity to thank the citizens of Gettysburg and the public generally, for the VERY LIBERAL patronage extended to the "Excelsior," since its establishment, and hope by strict attention to business, coupled with the advantage of over ten years uninterrupted practice of the art, to merit a continuance of the same. The Great Bone Fertilizer.

BAUGH'S
RAW BONE PHOSPHATE,

containing 53 per cent. of Phosphate of Lime, and 4.05 per cent. Ammonia.

It should be borne in mind that the Phosphate of Lime in this article being obtained exclusively from RAW BONES and a TRUE BIRD GUANO, there is NO PORTION of it INOPERATIVE, as in the case of SUPER PHOSPHATES made from MINERAL GUANOS—but being entirely SOLUBLE in the SOIL, continues to IMPART its FERTILIZING qualities to the CROPS for YEARS.

The REMARKABLE SUCCESS which has attended its use for years past, is a sufficient GUARANTY to induce those who have not tried it to do so.

The GRAIN CROP where this FERTILIZER has been applied is supposed to have been INCREASED from 25 to 50 per cent. by its use, while for TOBACCO and GRASS LANDS its success has been EQUALLY DECIDED.

New Skirt for 1866.

THE GREAT INVENTION OF THE AGE IN HOOP SKIRTS.—J. W. BRADLEY'S New Patent DUPLEX ELLIPTIC (or double) SPRING SKIRT.—This invention consists of Duplex (or two) Elliptic Pure Refined Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible, elastic and durable Spring ever used. They seldom bend or break, like the Single Springs, and consequently preserve their perfect and beautiful Shape more than twice as long as any Single Spring Skirt that ever has or can be made.

The wonderful flexibility and great comfort and pleasure to any Lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress.

A Lady having enjoyed the Pleasure, Comfort and Great Convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

The Hoops are covered with 2-ply double twisted thread and will wear twice as long as the single yarn covering which is used on all Single Steel Hoop Skirts. The three bottom rods on every Skirt are also Double Steel, and twice or double covered to prevent the covering from wearing off the rods when dragging down stairs, stone steps, &c., &c., which they are constantly subject to when in use.

All are made of the new and elegant Corded Tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect Shape possible, and are unquestionably the lightest, most desirable, comfortable and economical Skirt ever made.

Great Remedy for Colds.

BELL'S PECTORAL
BALSAMIC CORDIAL, OR
EXPECTORANT!

A Remedial Agent prepared to meet the urgent demand for a prompt and safe Antidote for all Pulmonary Disorders. If properly used it will give instant relief in almost every instance, and will prove an effectual cure in a majority of the following cases of affections of the THROAT AND LUNGS! such as Colds, Coughs, Asthmatic Tendencies, Whooping Cough, Soreness of the Breast and Bronchial Affections.

When we first commenced manufacturing the Expectorant for our home consumption it was not our intention nor our desire to put it before the public as a "cure-all," nor to publish a long list of testimonials as an evidence of its curative properties, but the demand for it being so great and decidedly on the increase, has induced, and in fact compelled us to prepare it on a much larger scale, and also to establish agencies throughout this section of the country.

All we ask is that those thus afflicted may give it a fair trial, that it may prove its many advantages over other preparations of a similar nature now being employed.

The price too throws it within the reach of all, being but 25 and 40 cents a bottle.

Bell's Worm Syrup.

THE MOST INNOCENT, PLEASANT AND EFFICIENT REMEDY IN USE.—A REMEDY PERFECT IN ITSELF.—*No Castor Oil to be Taken.*—In this Preparation we have included such remedies only as have been tried for years and are known to possess powerful anthelmintic virtues, combined with mild aperients, pleasant aromatics and sugar. Anthelmintics of themselves cannot perform their peculiar functions or have the desired effect, unless the bowels are kept moderately open. To produce this, gentle purgatives are necessary and such only ought to be used that cannot interfere with the anthelmintic employed. The advantages we claim for this Syrup are:

1st. Its power of DESTROYING AND EXPELLING WORMS!

2d. Its mild aperient effect upon the bowels.

3d. Its pleasant taste and odor are advantages possessed or claimed by very few Vermifuges.

4th. Its harmless influence upon the system, consequently no injurious effects will result from its use should the patient have no Worms, but an apparent disease, arising from some other unknown cause, which is frequently the case.

The constituents of this Syrup and its effects are known to many Physicians, who are now using it in their practice to a large extent.

Price 25 cents a bottle.

The Greatest Liniment in Use.

BELL'S WHITE OIL!—*The Blandest, Cleanest, most Penetrating and most Economical Liniment in Use.*—A powerful Oleaginous Compound for the Speedy Cure of Rheumatism, Strains, Sprains, Wounds, Numbness of the Limbs, Frosted Feet and Hands, Spavin, Saddle Galls, Poll-Evil, Ring Bone, Bruises, Swellings of all kind, and in fact every disease for which an Embrocation is applicable, either in Man or Beast. Price 25 cents a bottle.—This preparation, which is original with us, will be found to be one of the nicest and at the same time one of the most reliable applications extant.

Having been employed very extensively since its introduction and feeling satisfied of its remedial properties, we recommend it with the utmost confidence, knowing that no one will be disappointed in its use. It is, as its name implies, a white liniment of the consistency of cream, containing nothing offensive, but, on the contrary, will be found more pleasant than otherwise.

Bell's Alterative,

OR CONDITION POWDERS!
FOR HORSES, CATTLE & SWINE.

25 cents a paper, or five papers for $1.

The immense sale of these Powders during the short period they have been before the public, is a sufficient guarantee of their great popularity, and the decided benefits derived from their use.

They are confidently recommended not only as a preventive, but as a complete cure for all diseases incident to the HORSE, COW or HOG, as Loss of Appetite, Coughs, Heaves, Yellow Water, Distemper, Glanders, &c., &c.

By their use the Horse's Appetite is improved, all derangements of the digestive organs corrected, softening the skin, and giving to the coat a sleek and shining appearance, and may be used with perfect safety at all times, as it contains no ingredients which can injure a horse, whether sick or well.

They cleanse the breathing apparatus by ejecting from the air cells coagulated matter, or that formation which so severely clogs them, causing a tightness in breathing, and by their peculiar action on that part, they cause the mucus membrane to resume its natural dimensions, thus equalizing the circulation of the blood and restoring the distended vessels to their natural size.

For fattening cattle they are invaluable, also possessing peculiar properties in increasing the quantity of milk in Cows, thereby giving them an importance and value which should place them within the hands of all interested.

All diseases to which the Hog is subject, as Coughs, Ulcers in the Lungs and Liver, and as a general purifier of the blood we guarantee their efficacy if once fairly tried.
